Day 1: This workshop will cover the concept of telepathic communication with animals and how to access this ability. Various Exercises have been developed to help you get the feel of a telepathic “exchange”. We will learn the essential steps in animal communication and will be working with some wonderful animals teachers and by the end of the day will be connecting with your own animals via pictures. We will also meditate/journey to find your unique “power animal” and discuss its message to you. Please bring photos of your own animals for communication purposes.

Day 2: This workshop is designed to help you to understand and remove personal blocks so that we are able to hear the animals and our own intuition clearer. Your animals will be the primary teachers during this class via photographs both alive and in spirit. We will work on connecting with each others animals on a deeper level, including addressing any present behavioral issues and how to counsel them. A special portion of the workshop will involve a meditation to meet and work with your spirit guide(s) and I will relay special messages from my guide(s) to you. Various exercises will be used to strengthen our “psychic” ability as well as meditations to quiet our mind allowing us to become more present in the moment. Weather permitting we may be outside for part of the class and have the opportunity to communicate/meditate with nature and wild animals.

Once you start to open the doors of your heart, you will see the world with new eyes.

Animal Communication changed my life; I look forward to sharing this journey with you.
