Masterson Method™ Equine Bodywork Seminar-Workshop for Horse Owners, Trainers and Therapists

In this “Hands-on” Weekend Seminar-Workshop, Stefanie Reinhold, Masterson Method™ Certified Instructor, will show you how to read and use responses of the horse to your touch to release accumulated stress in key junctions of the body that most affect performance.

Learn how to recognize what the horse is telling you through visual and palpable responses that enable you to get deeper releases of tension than the horse would otherwise be able to release on its own. This is a truly interactive process that results in a change in relationship, and an improvement in movement and performance.
